

Here at the Genetic Support Foundation, we truly believe in the importance of being informed about genetics as it relates to your health or the health of your patients. This is the stuff that keeps us up at night. If you share that passion and/or have been helped by this website or other resources found here, please consider making a financial contribution. The Genetic Support Foundation is a non-profit 501c3 that relies heavily on donations from individuals like you to make our efforts possible. All gifts made to the Genetic Support Foundation are tax-deductible. We appreciate any gift you can give, and we are very grateful for your support!

**Sincerely,**

The Genetic Support Foundation Team
