Pregnancy & Genetics - Zoom Webinar

Prenatal screening and diagnostic testing options

Presenter: Jenny Rietzler, MS, CGC.

Whether you're currently pregnant or planning a pregnancy, it is likely you will find yourself in a position of having to decide about options for prenatal genetic screening and testing.

With so many options available these days, it can be hard to know what, if any, is right for you and your family. In this introductory information session, experts at the Genetic Support Foundation will walk through the purposes, benefits, and limitations of the current prenatal genetic screening and testing options. Topics include: ultrasound, maternal serum screening, cell-free DNA screening, diagnostic testing, carrier screening, and common reasons someone might complete or decline what is being offered.

This webinar is open to anyone who is interested in the topic. Cost for the webinar is \$20. It is not covered by insurance. If you would like to attend this webinar but are unable to pay, please call our main office phone number at [\(844\) 743-6384](tel:8447436384) or email webinars@geneticsupport.org.
